

AMERICAN AUTOMATED CONTROLS

UNITED SECURITIES AD-2000 AUTO DIALER

AD-2000

The AD-2000 dialer features busy-line and no-answer detection to ensure prompt transmission of up to 4 Pre-recorded messages delivered sequentially to as many as 8 standard telephones, cellular phones, voice and/or numeric pagers.

Messages to both local and long-distance calls can be transmitted. When activated, the dialer instantly begins calling the numbers in sequence, delivering each message 1 to 3 times in a row, in accordance with the pre-selected number of dialing attempts.

The AD-2000 is extensively programmable, offering personalized customization to fulfill virtually any residential or business requirement. Plain-English prompts walk the user through the process in a timely manner. Each unit comes Standard with battery backup to allow for monitoring of power to the system.

The multitude of programming options allowing the user to:

- Store up to 8 telephone/pager numbers.
- Choose 1- 9 calling efforts for the numbers dialed.
- Select 1-3 message repeats.
- Record a variable combination (maximum: 7) of instructional outgoing messages (total elapsed time: 51 seconds).
- Program up to 4 separate input channels with individually selectable enable/disable of the each input, entry/exit delays and activation options
- Capable of using Normally Open (N.O.), Normally Closed (N.C.) dry contact or voltage activation including momentary (must be user reset before next occurrence of alarm) and continuous (auto resetting) activation for each.
- Further individualize each channel by selecting the delay times, telephone/pager numbers to be dialed and the specific outgoing messages to be played.
