

# AMERICAN PERC-RITE®

**Wash Down Filters  
WD Series**

Wash Down Filter Systems automatically remove contaminants from the surface of the filter, substantially increasing the time between service events in secondary effluent dispersal systems.

## PERC-RITE® Drip Dispersal

**Fully Automatic Filtration  
ASD Series**

For Septic or Secondary Effluent water quality, automatic systems are self maintaining and can go years without servicing. Filters are fully cleaned at the beginning and during each dose cycle.
